

## WICSA 07 Tutorial

Aligning Architectural Approaches towards an SOA-based Enterprise Architecture  
Rakesh Radhakrishnan, Badri Sriraman  
January 7, 2007 (Half Day – AM)

This tutorial will provide an overview of architecture patterns, approaches, and service oriented architecture (SOA) principles. The following topics will be discussed and illustrated with sample scenarios:

- [Model Driven Architecture Enabling Service Oriented Architectures](#)
- [Identity Enabled Networks - The Core Service Building Block for Service Oriented Architectures](#)
- [Event Driven Architecture Augmenting Service Oriented Architectures](#)
- [Component Based Architecture Supplementing Service Oriented Architectures](#)
- [Utility Computing Architecture Supporting Service Oriented Architectures](#)
